Notes and Definitions

Item	Definition
D1	LOQ and sample results were adjusted to reflect sample dilution.
I1	Interference. Relative intensity of a characteristic ion in the sample analyte exceeded 30% of the relative intensity in the reference spectrum.
L1	The percent recovery of the LCS was above the control limit for the test but analyte was not detected above the Action Limit in Table 3.1.
M1	Matrix Spike recovery was higher than control limit but recovery of the LCS was within control limits.
M2	Matrix Spike recovery was lower than control limit but recovery of the LCS was within control limits.
Q3	Testing result is for informational purposes only and cannot be used to satisfy dispensary testing requirements in R9-17-317.01(A) or labeling requirements in R9-17-317. Testing result is not accredited under ISO 17025.
V1	CCV recovery exceeded control limits but the sample analyte concentration was below maximum allowable concentrations in table 3.1
ND	Analyte NOT DETECTED at or above the reporting limit.
RPD	Relative Percent Difference
%REC	Percent Recovery
Source	Sample that was matrix spiked or duplicated.

To Whom It May Concern:

This letter confirms the request made by Nate Murdock to amend the sample and strain name for Sample IDs S308063-03 (2308C4L0054.2444).

Per AZDHS, if any kind of sample information is altered after the report is issued, then the only way a new report could be valid and defensible would be for the new report to have information of what was changed, date of change, who changed and why. This can be in the information area of the COA.

Below is Nate Murdock's official request received 08/22/23:

Good Morning Dakota,

One issue I found was on our end of course. We misspelled "Lucious Locks". It should be "Luscious Locks". This will be for the strain name and sample name.

CC ID#: 2308C4L0054.2444

Old Strain Name: **Lucious Locks**
Old Sample Name: **Lucious Locks**

New Strain Name: **Luscious Locks**
New Sample Name: **Luscious Locks**

Thank you

To Whom It May Concern:

This letter confirms the request made by Nathan Murdock to amend the batch # for sample ID S308063-03 (2308C4L0054.2444).

Per AZDHS, if any kind of sample information is altered after the report is issued, then the only way a new report could be valid and defensible would be for the new report to have information of what was changed, date of change, who changed and why. This can be in the information area of the COA.

Below is Nathan Murdock's official request received 08/24/23:

Good Morning,

On order 2308C4L0054.2444 can I get the batch adjusted from "0613BLLLK" to 0613BLLLC"?

This is an urgent request so if we could get this done in the next hour that would be ideal.

Please send over the docu sign so we can get this moving.

Thank you
